Draft - gaps to resolve before lender review

This output is useful for advisor review, but must not be issued externally until the controls below pass.

- Budget funding readiness: Needs advisor review.
- Repeated narrative phrasing detected. Consolidate duplicated wording before sharing the plan externally.

Founder responsibility

This business plan for Harbour Planning Limited was generated from the current Future Shift Advisory workspace. Lender Readiness Sample remains responsible for the plan content, assumptions, evidence, and funding decisions.

INTERNAL DRAFT

SECTION 1

1. Executive Summary

Harbour Planning Limited provides practical advisory intensives for early-stage owners. The lender decision is whether the stated founder funding and cash buffer are sufficient for the capacity-capped forecast.

SECTION 2

2. Company Description

Business type, location, and operating model

0 supporting files

Harbour Planning Limited is an advisory business based in Hamilton, delivering focused planning intensives online and in person.

Mission and vision

0 supporting files

This completed section sets out the current decision, responsible owner, evidence, and review date for the business plan.

SECTION 3

3. Market Research

Market Research input	Current lender-facing content	Evidence
Industry and customer demand	The founder has attached customer interview evidence and a dated market note to support the demand assumptions in this plan.	1 supporting file
What sets the business apart	This completed section sets out the current decision, responsible owner, evidence, and review date for the business plan.	0 supporting files
Competitor comparison	This completed section sets out the current decision, responsible owner, evidence, and review date for the business plan.	0 supporting files

SECTION 4

4. Service Line & Pricing

Service Line & Pricing input	Current lender-facing content	Evidence
Revenue model	This completed section sets out the current decision, responsible owner, evidence, and review date for the business plan.	0 supporting files

10. Finance

Financial assumptions

0 supporting files

This completed section sets out the current decision, responsible owner, evidence, and review date for the business plan.

Revenue model

0 supporting files

This completed section sets out the current decision, responsible owner, evidence, and review date for the business plan.

Funding and support

0 supporting files

This completed section sets out the current decision, responsible owner, evidence, and review date for the business plan.

10.1 Financial Snapshot

Declared funding position	Self-funded
Lowest cash position	\$8,514 in Month 24
Required additional funding	\$0
Funding available	\$85,000
Break-even timing	Not reached in forecast
Cash-positive timing	Year 1

10.2 Annual Forecast

Year	Revenue	Gross profit	Fixed costs	Net profit before tax	Ending cash
Year 1	\$39,959	\$29,980	\$63,400	-\$33,420	\$45,913
Year 2	\$46,992	\$34,187	\$65,302	-\$33,115	\$8,514

10.3 Key Assumptions

Assumption	Value	Basis	Review note
Annual revenue growth %	12%	Founder/advisor input	Check against pipeline, pricing tests, signed work, or demand evidence.
Revenue basis after year 1	Year 1 exit run-rate	Founder/advisor selection	Use the Year 1 average only for an intentional seasonal or averaged forecast.
Forecast start month	2026-09	Founder/advisor input	Use the real first forecast month so monthly cash and written milestones reconcile.
Opening cash balance	\$5,000	Founder/advisor input	Keep opening cash separate from Month 1 cash movement and funding inflows.
Debtor days	30 days	Founder/advisor input	Match deposit and invoice collection timing; zero means cash is collected in the same month.
Creditor days	30 days	Founder/advisor input	Match supplier-payment timing; zero means direct costs are paid in the same month.
Funding position	Self-funded	Founder/advisor confirmed	Choose self-funded only when the cash forecast supports it; otherwise state the external funding request.
Funding Request Purpose	Not applicable (self-funded)	Self-funded position	No external use-of-funds statement applies to a self-funded plan.
Cost inflation / CPI %	3%	Founder/advisor input	Check against current supplier pricing, rent, wages, software, and CPI context.
Target GP %	70%	Founder/advisor input	Check price, direct delivery cost, capacity, and product or service mix.
Target net profit before tax %	15%	Founder/advisor input	Check whether overheads and owner capacity support the target.
Target net profit after tax %	10%	Founder/advisor input	Check tax treatment and whether retained profit is realistic.
Company tax rate	28%	Reference data	Confirm reference data before relying on after-tax profit.

10.4 Break-Even & Sensitivity Summary

Scenario	Test	Break-even	Lowest cash	Cash need
Base case	Base	Not reached in forecast	\$8,514	\$0
Revenue downside	Sensitivity	Not reached in forecast	-\$808	\$808
Cost upside	Sensitivity	Not reached in forecast	-\$7,418	\$7,418
Combined downside	Sensitivity	Not reached in forecast	-\$16,015	\$16,015

10.5 Funding Request & Use of Funds

The forecast is internally complete enough to review, but open quality checks still need an advisor decision before external issue.

Category	Amount	Why it matters
Planned one-off costs	\$3,000	One-off costs entered in the budget, whether for setup, replacement, or growth.
Operating cover	\$31,700	6 months of fixed costs, aligned to lender-style runway checks.
Contingency reserve	\$3,470	10% buffer on planned one-off costs and operating cover for timing and pricing variance.
Recommended funding target	\$38,170	Funding target before comparing against cash already available.
Funding and opening cash available	\$85,000	Saved funding sources plus opening cash balance in the forecast.
Required additional funding	\$0	The single funding action figure: the larger of the planned funding-target shortfall and the monthly cash-curve deficit.

10.6 Reconciliation Gate

This plan is an internal draft until the linked Budget Pack, source evidence, and written funding position all reconcile.

10.7 Path to Profitability / Repayment Capacity

Break-even is Not reached in forecast; cumulative cash turns positive Year 1. Lender repayment capacity must be assessed against the saved cash curve, required funding, and downside scenarios above.
